RLV Technology Exposition Under Way at Marshall Center

The Reusable Launch Vehicle (RLV) Technology Exposition is in progress here and will continue Wednesday with presentations by Marshall, Lewis Research Center and the Jet Propulsion Laboratory. Five NASA centers are participating in the Expo, aimed at highlighting capabilities and roles in developing technologies for advanced space transportation systems. Presentations are being made in Morris Auditorium. Exhibits are located in Bldg. 4200, Room G13.

Systems and Software Expo '97 Scheduled for Thurs. at Arsenal

Information Systems Services will host the Systems and Software Expo '97 for Marshall and Redstone Arsenal employees, 10 a.m. - 2 p.m. Thursday at the Redstone Officers' Club. Admission is free. **Contact:** Information Systems Services, (800) 746-0099.

Technology Transfer Overview Set for 10 a.m. Thurs. at Marshall

"Technology Transfer and Commercialization: NASA's Agenda for Change" will be offered 10 - 11 a.m. Thursday in Bldg. 4200, Room P110. The course will provide an overview of the federal technology transfer and commercialization challenge and familiarize employees with NASA's response to this challenge. Reservations are required. **Contact:** Susan Whitfield by e-mail or at 4-1933.
